

MILAN PHOTO STUDIOS

CLX operates two photo studios in Milan.

- **Studio 1** features 4 sets across 106 sqm, while
- **Studio 2** offers 6 sets over 210 sqm, providing flexible environments for a wide range of productions.

Our Milan hub was designed to scale from the very beginning. The three-floor, 300-square-meter facility hosts around 50 people, with two levels dedicated to photo production—one for traditional sets and one equipped for robotic photography and photogrammetry. Strategically located at the heart of the fashion industry, our Milan hub is a center of technological excellence.
